

PROJECT SCOPE STATEMENT

Project Title : IIITB gateway surveillance system	Project Number : PRO1
Project Leader : Sonal Garg	Start Date : 2 September, 2018
Sponsor : Ashish Singh	Completion Date : 2 Nov., 2018
Team Members : <ul style="list-style-type: none">• Ashish• Ashlin• Sagar babu	
Purpose of Project : <ul style="list-style-type: none">• to build a software to track the movement of people inside/outside of campus• Details of violation of the curfew time• System would maintain the vacation days.thus students needn't remember about their exit/entry status• To maintain a log of time of all people	
Background : <ul style="list-style-type: none">• The number of vacation days taken by a student was not accurate• Precise entry and exit time were not available prior• By having a Bar code scanner along with digital logs, data will be accurate and easily retrievable.	
Deliverables : <ul style="list-style-type: none">• A software, to be used along with the barcode reader,that will allow to store entry exit times into a database.• Notify the students/guest to prevent them from breaching curfew protocols.• Every students record of number of curfew violations and number of days spent in college	
Stakeholders : <ul style="list-style-type: none">• Students• Working staff• Guests/Other people visiting IIITB• Administration• Faculty	
Resource requirements : <ul style="list-style-type: none">• Bar Code Scanner at each gate• Desktops• Budget of around Rs. 5001/-• Temporary tokens for visiting guests
